

Esker Announces New Order Processing Integration Capabilities with Oracle® E-Business Suite ERP Solution

Sydney, Australia — December 14, 2016 — [Esker](#), a worldwide leader in document [process automation solutions and pioneer in cloud computing](#), today announced it is now offering a [sales order processing](#) solution integration with Oracle E-Business Suite. Esker customers can now receive orders directly in the Oracle E-Business Suite ERP application, enabling greater process efficiency and productivity across every phase of order processing operations.

Esker provides a single solution for sales order processing — directly into and out of Oracle E-Business Suite — to automate, streamline and track orders. Based on Esker customer results, order processing automation can help businesses process orders up to 80 percent faster, increase order accuracy rates by up to 99 percent and increase staff productivity as much as 65 percent.

The integration capabilities of Esker's order processing solution are built on proven Oracle technology and application program interfaces (APIs), providing customers with a reliable, seamless ERP integration and offering IT departments the peace of mind they require during rollouts of new technologies.

Oracle E-Business Suite customers can leverage the value they have invested in their ERP system while taking advantage of specific features and benefits, including:

- Automated master data synchronisation
- Order creation and confirmation
- Order archive link directly available in Oracle E-Business Suite
- Reliable and seamless integration
- Minimal IT involvement leading to faster go-live
- Continuous maintenance and updates

“Esker continues to reinforce its investment in the Oracle business environment by delivering new integration capabilities to provide customers with even more value as they address both order processing and accounts payable automation,” said Esker CEO Jean-Michel Bérard. “The recent NetSuite acquisition demonstrates Oracle’s dynamic ecosystem, of which Esker wants to be a part of. As we are continuously expanding our connectors’ capabilities, we foresee a NetSuite connector in the near future.”

“Esker has been very successful with its Order Processing and Order Management solutions for SAP over the past 10 years in the Australian and New Zealand markets. We are excited to bring the same level of capabilities and business benefits to organisations running Oracle E-Business Suite ERP applications and soon NetSuite,” said Christophe DuMonet, Managing Director of Esker Australia & New Zealand.
