

# Esker on Demand – full speed in the Cloud

## Growth at full throttle as Esker surpasses 200 million pages processed and sent for customers with Esker on Demand

**Sydney, Australia – February 1<sup>st</sup>, 2010** – Esker, the leader in document process automation solutions, today announced that it has processed and sent over 200 million pages via its Esker on Demand services. This milestone reflects the value of the Esker solutions in helping companies break free from the constraining effects of manual paper processes, confirming market trends toward outsourcing and the SaaS (software as a service) model.

Esker on Demand solutions have proven highly successful to businesses and organisations wanting to automate and outsource processing and delivery of invoices, account statements, reminder letters, paychecks, purchase orders, marketing and sales communications, and other business documents.

In 2009, Esker on Demand reached new heights:

- **48 % growth worldwide – 50% growth in Australia** (over 2008)
- **8 million pages processed per month worldwide (10% in Australia)**
- **3,000 customers worldwide – 100 customers in Australia alone**

“Reaching the 200 million page processed with our on-demand solutions milestone represents a significant accomplishment for Esker. It clearly confirms the relevance of our offers to help businesses free themselves from the constraints of paper,” said Jean-Michel Bérard, CEO of Esker. “Based on „pay as you use” we offer solutions to send letters, faxes, e-mail or SMS regardless of the volume as well as solutions to process vendor invoices, faxed orders, and other inbound documents. Our solutions eliminate the need to invest in new hardware or infrastructure and free up employee time to focus on more important activities. Companies now have a reliable and secure way to automate, process and deliver critical business documents, all while meeting corporate responsibility initiatives on sustainable development.”

### Highlights:

- **200 million pages processed**
- **100 million documents delivered**
- **300 tons of paper saved, 5,100 trees preserved, 335 tons of waste reduced, 900 barrels of oil saved and 8 million liters of water saved**

Those interested in finding out more about eliminating paper can visit [www.quitpaper.com.au](http://www.quitpaper.com.au) to learn paper facts and calculate the environmental impact of their paper usage.

## About Esker

Esker is a recognised leader in helping organisations reduce the use of paper, eliminate manual processes and simplify IT landscapes. With its comprehensive platform, Esker delivers the benefits of automated document processing as on-demand services (SaaS) and on-premise solutions. Customers achieve significant operational efficiencies, cost savings and ROI in as little as three to six months while gaining visibility and control within order-to-cash and procure-to-pay business processes ranging from sales order management and accounts receivable to purchasing and accounts payable. Founded in 1985, Esker operates globally with more than 80,000 customers and millions of licensed users worldwide. Esker has global headquarters in Lyon, France, U.S. headquarters in Madison, Wisconsin and ANZ headquarters in Sydney since 1997. For more information, visit [www.esker.com.au](http://www.esker.com.au). Follow Esker on Twitter and join the conversation at [twitter.com/eskerinc](https://twitter.com/eskerinc).
